PROJECT PLANNING PHASE

SPRINT DELIVERY PLAN

TEAM ID	PNT2022TMID06323
PROJECT NAME	AI-powered Nutrition Analyzer for Fitness Enthusiasts

Spirit Delivery Plan:

   The goal of every project is, in fact, to produce a result that serves a specific purpose. Project Sprint Delivery Planning is one of the processes of completing the project and Show Casing the Time Line of the Project Planning. This Delivery plan help to understanding the process and Work Flow of the Project working by theTeam Mates. Importing necessary libraries are very important and then configure the imageDatagenerator and apply the trainset and testset to our project. And initializing the model is very important and adding specific layers of dense and CNN and configure the learning process and train our model and we are saving it. Then creating html pages for enrolling the user request with this application building with the python code and train our model on the IBM cloud for deployment. Every Single Modules are assigned to the team mates to show case their work and contribution of developing the Project.
